

LED Light Exchange PSA

Do you wish the holidays could last longer? Well, you'll have to talk to your boss about that. But we can help make your holiday lights last longer. Ten times longer. And use 90 per cent less energy. Bring two strings of your regular glass holiday lights to the New Ross Regional Development Society Christmas tree lighting ceremony on Friday, Dec.4 and get a free string of energy saving LED holiday lights in return. While there, enjoy the Children's Parade of Lights, free hot chocolate and popcorn, and the first time use of our new Bandstand. Exchange runs from 5pm- 7:30 pm at Christ Church basement on Hwy.12 at the 'Cross'. Come early, while quantities last. Limit one exchange per person, courtesy of Nova Scotia Power and the New Ross Regional Development Society.
